Profile

Hi, I'm Hasan. I stepped into the software world during my high school years, and my passion for it has never diminished since then. Starting with Java, I transitioned to Android Kotlin technology in my programming career and have been involved in numerous domestic and international projects. In addition to publishing mobile games on the Play Store, I develop high-performance mobile payment applications for iOS and Android using React Native and TypeScript. As a candidate open to continuous improvement, I am always open to new opportunities with my interest in the industry and my skills.

Skills: HTML/CSS, JavaScript, Java, Kotlin, Android Studio, Xcode, TypeScript, Node.js, React Native, Redux, RestApi, MVVM, Git

Languages: English (B1)

Education

09/2018 – 06/2023 **Computer Engineering, Erzurum Technical University**

Experience

- 01/2024 – present **Software Engineer, NKolay Ödeme ve Elektronik Para Kuruluşu A.Ş**
Istanbul, Turkey
- I develop high-performance mobile payment applications for iOS and Android using React Native and TypeScript. Specialized in cross-platform development, secure payment integrations, and user-centric design. Proficient in efficient project management and team collaboration using Agile methodologies.
- 05/2023 – 12/2023 **Software Engineer, Otobende**
Istanbul, Turkey
- I develop vehicle tracking and service applications for Otobende using React Native. Focused on user experience, I successfully deliver projects across platforms.
- 09/2022 – 12/2022 **Mobil App Developer, Arute Solutions**
Istanbul, Türkiye
- I develop courier and cargo tracking mobile applications using Redux and Map technologies. Utilizing React Native for cross-platform development, I focus on delivering projects successfully with a strong emphasis on user experience.
- 12/2021 – present **Freelancer, Freelancer**
Istanbul, Turkey
- As a Software Developer, I have successfully completed various Android projects using Java, Kotlin, and React Native. These projects were published on both the Google Play Store and the Apple App Store, reaching users on both Android and iOS platforms.
- 08/2021 – 11/2021 **Software Internship in Portugal/Lisbon : R&D Kotlin Project, PremiValor Consulting**
Lisbon, Portugal
- I had the opportunity to intern abroad in the field of software at PremiValor Consulting, based in Lisbon, Portugal. During my four-month tenure there, I participated in an R&D project, utilizing Android Kotlin technology and further enhancing the project with Firebase technology. Throughout this experience, I learned various new technologies and had the chance to improve myself with valuable feedback from colleagues and mentors. My time at PremiValor Consulting marked a significant milestone in my career, propelling me forward as a software developer.

Projects

06/2021 – present **Play Store Project, My apps from Play Store** <https://play.google.com/store/apps/developer?id=DarkSor+Company>
